

CASE STUDY

Education Service - One to One Tutoring

INTRODUCTION

Ubique Training Academy offers personalised one-on-one tutoring for primary-aged children. Our seasoned tutor conducts weekly sessions aimed at bolstering a child's confidence and reinforcing curriculum knowledge. This tailored approach ensures academic support and empowers children to excel in their studies.

OBJECTIVE

The tutoring sessions aim to guide and support children in acquiring the necessary knowledge for success in their classrooms. Each week, a diverse range of curriculum subjects is addressed through a meticulously planned and delivered tailored approach, ensuring that any gaps in understanding are filled, and knowledge is extended.

SOLUTION

Ubique Training Academy provides personalised one-to-one sessions tailored to each child's current proficiency.

Following an initial assessment to establish a baseline, a meticulously planned program is implemented, tracked, monitored, and reported to parents.

Our tutors are adept at mentoring children to overcome challenges and elevate their performance across all curriculum areas. They possess the skill to explain strategies in engaging and memorable ways, fostering a 'can-do' attitude and a growth mindset.

The tutor at Ubique Training Academy holds extensive experience in educating children across the Early Years Foundation Stage (EYFS), Key Stage 1 (KS1), and Key Stage 2 (KS2). Possessing a deep understanding of pedagogy, they adeptly maximise children's educational potential, ensuring effective learning outcomes at every stage of development.

At Ubique, we acknowledge and celebrate diverse capabilities and learning styles, guiding each child to discover their unique path and surpass what they deemed possible.

AT A GLANCE

Challenges

- Pupils' differing needs and abilities.
- Time constraints.
- Pupils' varying age ranges
- Pupils' engagement levels.

Benefits

- Uses unique adaptive curriculum tools to meet a child's individual learning needs.
- Presents the opportunity for children to practice, revise, and boost their confidence.
- Mapped to the National Curriculum.
- Enhanced confidence and self-esteem
- Progress tracked and reviewed.

"Since enrolling in the tutoring sessions, I have observed a noticeable improvement in my child's knowledge and, more importantly, a heightened confidence in approaching various subjects at school. The positive change is evident in their enjoyment of the sessions – entering with a smile and leaving with an even brighter one."
